CDH Custom Roll Form, LLC

High-Security Palisade Fencing

U.S. Department of Homeland Security Safety Act Approved Technology

Approved August 20, 2026

Safety Act designation:

High-Security Palisade Fencing.

Approved August 20, 2026.

Designation expires August 31, 2033.

Recognized by the U.S. Department of Homeland Security

The U.S. Department of Homeland Security has designated and certified CDH's High-Security Palisade Fencing products through the Support Anti-Terrorism by Fostering Effective Technologies (SAFETY) Act program.

The SAFETY Act provides liability protections for qualified anti-terrorism technologies that are determined by DHS to provide effective security capabilities.

Security Around Which You Can Build

Perimeter security is an essential component of protecting critical facilities, infrastructure and other high-value assets. CDH's High-Security Palisade Fencing provides a physical barrier designed with security and durability in mind.

The DHS Safety Act approval adds another layer of recognition to the technology, demonstrating CDH's commitment to developing high-performance fencing solutions for demanding security applications.

A Stronger Approach to Perimeter Security

CDH Custom Roll Form, LLC combines engineering expertise, manufacturing capabilities and security-focused solutions to help customers protect what matters most.
